

RICON DEALER NEWS

August 29, 2005

APTA TRI-ANNUAL TRANSIT EXPO NEARS:

The American Public Transportation Association (APTA) is scheduled to hold their International Public Transportation Expo Sept. 26-28, 2005 in Dallas. This is the largest transit tradeshow in the U. S. and Ricon is planning a major exhibition with the introduction of an exciting new concept in transit bus accessibility.

In addition, we will be displaying the new FMVSS compliant Mirage, BAYlift, and KlearVue lifts along with our complete line of low-floor access ramps, FOLDOver, BiFOLD and EXPRESSramp.

This is a must see show for anyone in the transportation industry. To make it easy to attend, Ricon has a limited number of VIP passes available at no charge. If you plan to attend and would like to be our guest at the tradeshow, please send us an email at bhinze@riconcorp.com and request up to 4 VIP show passes. All requests must be received by September 16, 2005.

NEWARK SERVICE SCHOOL REMINDER:

Time is running out to register for the September 14th service school in Newark, NJ. Attendees will be Ricon certified to perform all aspects of maintenance for both the S-Series and KlearVue platform wheelchair lifts. Our six hour course will cover basic to advanced maintenance procedures that will help keep your fleet on the road and increase the life of your lift. Plus, learn how new FMVSS 403 regulations effect the lifts you're buying today.

NEW S/K BROCHURE:

All Ricon dealers should have received an inventory of our new S & K product brochures by now. This is the first in a series of brochures representing commercial, transit lift and transit low-floor product families. What is your overall impression? Is the information and format helpful to you and your customers? E-mail us with your comments to bhinze@riconcorp.com. Tell us what you like or dislike, how can we make it better? Your feedback is very important to us.
